The charge for "Time of Day" is the same as the charge at your regular rate for any other local call.

PERSONAL TELEPHONE LIST

LONG DISTANCE CALLS GO THROUGH FASTER WHEN YOU CALL BY NUMBER. JOT IT DOWN FOR FUTURE USE.

NAME	TELEPHONE NUMBER

HOW TO DIAL

REMEMBER

1. Get the correct number from the current telephone directory. If the listing is not found, please call "INFORMATION."
2. Lift the receiver and listen for the "hum" of the dial tone.
3. Dial the first two capitalized letters and the numeral in the central office name, then the remaining figures in the number.

For instance: If the telephone number is Yorktown 7-6301—dial Y, O, 7, 6, 3, 0, 1.

4. Let the dial return freely after each figure is dialed. Forcing or retarding the return motion may result in a wrong number.

OTHER SUGGESTIONS ON DIALING

- Be careful not to mistake the letter "O" for the figure "0" (zero); or the letter "I" for the figure "1" (one).
- If you realize a mistake in dialing has been made, hang up for a moment. After listening for the dial tone again, redial the complete number.

- From an extension or party line telephone, if you hear someone else dialing when you lift the receiver, tell him you have interfered with his call. Then hang up and make your call later.
- If while dialing you hear another person come on the line, tell him the line is in use. When he hangs up, replace the receiver for a moment. Then after hearing the dial tone again, redial the complete number. Otherwise, a wrong number may result.

HOW TO CALL ANOTHER TELEPHONE ON YOUR PARTY LINE

To ascertain the telephone number of a party on your line call "REPAIR SERVICE".

To call a party on your line, dial a special number which you may obtain from Repair Service. When dialing is completed replace the receiver. Your telephone and the called telephone will ring at regular intervals until the called party answers. When ringing stops, remove the receiver and begin conversation. If ringing is not stopped after a reasonable period, stop the ringing by momentarily lifting the receiver.

COIN TELEPHONES

Fair Oaks telephones do not require the deposit of a coin before dialing. For instructions on when to deposit coin please refer to the card on the particular telephone.

On calls to Operator, Information, Repair Service, the

Business Office, or if the called party does not answer there will be no charge. On calls to toll points the operator will inform you of the exact amount of money to be deposited for the initial period of conversation. Please report any service difficulties or coin collection errors to the operator.

TONES AND SIGNALS

DIAL TONE—A continuous steady "hum", the signal to start dialing.

RINGING SIGNAL—A "burring" tone repeated at regular intervals.

BUSY SIGNAL—A steady "buzz-buzz" tone.

IF NO SIGNAL IS HEARD WITHIN A REASONABLE TIME AFTER DIALING—Hang up. Look up the number to be sure it is correct. Then after waiting for the dial tone, dial the complete number again. If again no signal is heard, dial Operator and report the condition to her.

VOICE RECORDING SIGNAL—A short high "beep" tone heard on the telephone line about every 15

seconds means that the person with whom you are talking is recording your conversation by mean of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

There's a "go signal" on your dial telephone, too

The steady "hum-m-m" of the dial tone tells you it's time to go ahead and dial. That's your telephone's way of saying the equipment is ready to handle your call. During busiest hours, you may have to wait a few moments for the tone. But please wait until you hear it before you dial. For that's the only way the equipment can serve you properly. Thank you.
